Subject: [External_Sender] NO TO URANIUM

This license condition MUST be applied to the expansion project because old wells in the area could serve as conduits for water contamination from Strata's project. NRC has identified that water contamination could result from "improperly plugged previous exploration drillholes that have not yet been properly abandoned." NRC needs to do a better job at analyzing the risk that these old drillholes – both inside and immediately adjacent to Strata's project area – represent.
