Cindy Bladey,
Office of Administration
Stop: OWFN-12-H08, U.S. Nuclear Regulatory Commission
! Minimize light pollution and other industrial impacts to landowners in the Oshoto area and to Devil's Tower National Monument.
! Minimize impacts to livestock grazing and recreation in the area.
! Minimize impacts from truck traffic, dust and noise.\

! Should not be allowed to expand until Powder River Basin Resource Council's appeal for the Ross Project is settled.
! To date, not a single uranium project has fully restored an aquifer to pre-mining water quality
! Have been significant - with routine spills, leaks, and excursions of chemicals into adjacent aquifers.
This is why I object to expansion.

Mary Helen Pederson
