Subject: FOF TTP WG DRAFT RECOMMENDATIONS

Gentlemen,

This is the ADAMS ML number (ML16105A011) for the final draft of the Force on Force - Tactics, Techniques and Procedures Working Group recommendations that you both read earlier. It is being forwarded to the steering committee for their review and comments. Putting it in ADAMS was the quickest way to make it available to you for comment. Please review and provide comments. I would ask that the sooner the better. We certainly want to receive and address any comments that you have, however we are under a tight deadline for submitting the final paper to management.

Regards,

r

Ralph Way, Ph.D.
