Subject: [External_Sender] Indian Point baffling Reactor Vessel Bolts

Mr. Barkley.

Please respond to the following comments and questions as soon as possible.

1. I would like you to e-mail in a attachment the NRC Bulletin concerning the Reactor Vessel Bolts found in the Indian Point Nuclear Plant.
2. Has the NRC investigate suspect or determined these Reactor Vessel Bolts have been installed in other U.S. Nuclear plants across the country.
3. If so please send me a list of these plants and is Seabrook one of them?
4. Have any of these Nuclear Vessel Bolts been found to been counterfeit and or substandard?
- 5 When and how did the NRc become aware of these Reactor vessel bolts?
6. Please keep me abreast of any new information that comes to light.
7. Please send me any media articles covering this very troubling information.

Thank you,

Stephen B. Comley Sr.
