Subject: Change or address of GL-709440

Dear Director:

I would like to request a change of address of general license GL-709440 regulated under Title 10 of the *Code of Federal Regulations* (10 CFR Part 31). The State of Alaska, Department of Environmental Conservation (ADEC), Division of Environmental Health (EH) Laboratory possesses the Varian gas chromatograph with two electron capture detectors (ECD) with serial numbers A13191 and A14536. The device was shipped on August 2, 2001 to the ADEC Environmental Health Lab at 500 South Alaska Street in Palmer, Alaska where it was in use from August 22, 2001 through May 18, 2004. It was relocated to the new EH lab located in Anchorage, Alaska where it was used from April 19, 2006 through September 10, 2008. Since then, it has been in storage on site at the Anchorage EH lab. The address for the Anchorage EH lab is as follows:

Alaska Department of Environmental Conservation
Environmental Health Laboratory
5251 Dr. Martin Luther King Jr. Avenue
Anchorage, Alaska 99507

As the instrument is no longer in use and no future use is anticipated, it is being considered for disposal. As required by regulation, in accordance with 10 CFR 31.5(c)(8)(ii), ADEC will provide a report to the U.S. Nuclear Regulatory Commission within 30 days after the transfer of the device to a specific licensee.

If you require additional information regarding this request for address correction, please contact me at Marlena.brewer@alaska.gov or 907-29-1099.

Marlena Brewer

Environmental Program Specialist
Alaska Department of Environmental Conservation

Cc: Patryce McKinney, ADEC EH Lab Chief
