Subject: Clarification Call Related to RAIs on the Fitzpatrick Certified Fuel Handler Training Program and Related Tech Spec Staff License Amendment Request

Bill,

Please confirm that this summary captures the call we conducted today.

Thanks,

Bill Huffman
FitzPatrick Project Manager
NRR/DORL/LPL4-2
U.S. Nuclear Regulatory Commission
(301) 415-2046
William.Huffman@nrc.gov

On April 7, 2016, the staff issued draft RAIs (ADAMS No. ML16109A255) on Entergy's request for approval of the James A. FitzPatrick (JAF) Certified Fuel Handler Training and Retraining Program (MF7282). On April 14, 2016, the staff issued draft RAIs (ADAMS No. ML16109A256) on Entergy's proposed JAF technical specification changes to administrative controls for staffing and training upon permanent cessation of operation (MF7280).

On April 27, 2016, the staff conducted a clarification call with Entergy-JAF to confirm the licensee's understanding of the staff's information needs. During the clarification call, the following actions were agreed to by both the NRC staff and the licensee:

- 1) JAF stated that the information requested by the RAIs were understood and no additional clarifying changes to the RAIs are necessary.
- 2) JAF requested that the response date for these RAI be revised to May 27, 2016. The NRC staff considered a response date of May 27, 2016, to be acceptable.
- 3) The NRC staff noted that a publicly available version docketing this RAI clarification call would be placed in ADAMS via the NRC e-capture process.

*Participant included:

Entergy

Dustin Scurlock- Lead licensing Engineer for RAI
Doug Lindsay- Training Decommissioning Lead
Tim Cary- SRO-Operations Decommissioning Lead
