Protecting People and the Environment

Licensee Performance Review

URENCO USA
Eunice, NM
April 27, 2016

Division of Fuel Facility Inspection

Agenda

- **Introductions**
- **Discussion of Licensee Performance Review (LPR) Results**
- **Licensee's Response to NRC Review**
- **Questions & Answers**
- **Adjourn**

The Mission

- The NRC licenses and regulates the Nation's civilian use of radioactive materials to protect public health and safety, promote the common defense and security, and protect the environment.

How We Regulate

- Regulations and Guidance
- Licensing, Decommissioning, and Certification
- **Oversight - Inspection**
- Operational Experience
- Support for Decisions

Licensee Performance Review

- **Inspection Manual Chapter 2604**
- **Review and assess URENCO's safety and safeguards performance**
- **Assessment period:**
January 1, 2014 – December 31, 2015
- **Operations: Safety Operations, Radiological Controls, Facility Support, and Other Areas**
- **Construction: Management Measures and Facility Construction**

Performance Areas - Operations

- **Safety Operations – Plant Operations, Nuclear Criticality Safety, and Fire Protection**
- **Radiological Controls – Radiation Protection, Environmental Protection, Waste Management, and Transportation**
- **Facility Support – Maintenance and Surveillance of Safety Controls, Emergency Preparedness, Emergency Exercise Evaluation, and Permanent Plant Modifications**
- **Other Areas – Special issues that may arise on an occasional basis**
- **Safeguards – Material Control and Accounting, Physical Protection of Special Nuclear Material, and Classified Material and Information Security**

Performance Areas - Construction

- **Management Measures – Quality Assurance; Design Controls; Configuration Management; Procedures; Audits and Assessments; and Records Management**
- **Facility Construction –Foundation, Structural Concrete and Steel, Mechanical, Electrical, and Instrument Components**

Review Process Overview

- **Review inspection results, events, and related issues for performance trends during this assessment period.**
- **Identify areas needing improvement**
- **Identify areas where adjustments in inspection efforts are needed.**

The Results

- **URENCO continues to conduct licensed activities safely and securely; protecting public health and the environment**
- **No areas needing improvement were identified**

NRC Response

NRC Planned Inspections & Reviews in 2016:

- Baseline NRC inspection program**
- Review licensee's response to the NRC generic letter regarding natural phenomena hazards events**

LES, URENCO Remarks
