Dear Ms. Henderson and Ms. Beardsley:

Attached to this e-mail, is our proposed rule revisions to Washington's Radiological Health Rules to adopt the following NRC rule changes (identified by NRC Regulation Amendments Tracking System number):

- 2012-3: Technical Corrections
- 2012-4: Requirements for Distribution of Byproduct Material
- 2013-1: Physical Protection of Byproduct Material
- 2013-2: Distribution of Source Material to Exempt Persons and to General Licensees and Revision of General License and Exemptions
- 2015-1: Domestic Licensing of Special Nuclear Material
- 2015-2: Safeguards Information
- 2015-4: Miscellaneous Corrections

This rule making changes eight of our current chapters and creates one new chapter:

- 246-220, Radiation protection – General provisions
- 246-221, Radiation protection standards
- 246-231, Packaging and transportation of radioactive material
- 246-232, Radioactive materials – Licensing applicability
- 246-233, Radioactive materials – General licenses
- 246-235, Radioactive materials – Specific licenses
- 246-237, Radiation protection – Physical protection of category 1 and category 2 quantities of radioactive material (NEW CHAPTER)
- 246-243, Radiation protection – Industrial radiography
- 246-252, Radiation protection – Uranium or thorium milling

For language or punctuation we are deleting, it has a solid line through it and new language or punctuation is underlined. We believe these proposed rule revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Programs (FSME) Procedure SA-200.

If you have any questions, please contact Curt Demaris, Radiation Health Physicist, at (360)

236-3323, or by e-mail Curt.Demaris@DOH.WA.GOV
