Dear Mr. Ramis:

This refers to your letter dated March 28, 2016, for an amendment to your license to reflect changes in your executive management relative to the radiation safety program. Current NRC policy does not require that your license be amended when there is a change in executive management. Therefore, you only need to notify the NRC of any change in executive management relative to the radiation safety program.

In accordance with your letter, we have recorded the changes in your organization and will forward future correspondence to your attention. Thank you for your notification of the changes.

Your cooperation is appreciated

Sincerely,
