CONVERSATION RECORD (continued)

SUMMARY: (Continued from page 1)

A clarification call requested by AREVA was held on May 3, 2016, with NRC staff regarding clarification on the THERM/CONFINE-RAI-2-3 from the second round RAI for the AREVA CoC 1004 renewal application. AREVA had previously provided FLUENT input/output files a partial response to this RAI in January 2016. NRC staff clarified that additional detail and basis was needed to supplement the raw data that had been previously provided. The applicant described how they intended to supplement the response to THERM/CONFINE-RAI-2-3, and NRC staff indicated that AREVA understood the intent of the RAI. The call ended with both parties (NRC and AREVA) indicating that no further clarification was needed to the subject RAI.
