May 4, 2016

Mr. Steven E. Sisley
EnergySolutions Spent Fuel Division
2105 South Bascom Ave., Suite 230
Campbell, CA 95008

SUBJECT: APPLICATION FOR REVISING THE MODEL NO. MIDUS TRANSPORT
PACKAGE – ACCEPTED FOR REVIEW (TAC NO. L25103)

Dear Mr. Sisley:

By letter dated March 30, 2016, you submitted an application for revising Certificate of Compliance No. 9320 for the Model No. MIDUS transport package. The application requests to add solid molybdenum-99 (⁹⁹Mo) as new authorized contents for the Model No. MIDUS transportation package. The applicant did not request changes to the design of this package.

The staff performed an acceptance review of your application to determine if the application contained sufficient technical information in scope and depth to allow the staff to complete a detailed technical review. This letter acknowledges acceptance of your application.

The application appears to contain the information needed for our technical review. We have established a schedule for the review. The schedule allows for the staff to complete its technical review and issue the first request for additional information (RAI) in June 2016 and, if a second RAI is not needed, a certificate of compliance in September 2016, based on you responding to the first RAI in July 2016. In general, no additional changes to the application should be submitted except for changes resulting from your response to an RAI.

Please reference Docket No. 71-9320 and TAC No. L25103 in future correspondence related to this action. If you have any questions regarding this matter, please contact me at (301) 415-6999.

Sincerely,

/RA/

Norma Garcia-Santos, Project Manager
Spent Fuel Licensing Branch
Division of Spent Fuel Management
Office of Nuclear Material Safety
and Safeguards
