SUBJECT: UNIVERSITY OF CONNECTICUT, ACCEPTANCE OF NOTIFICATION OF
CHANGE IN EXECUTIVE MANAGEMENT, CONTROL NO. 590722

Dear Dr. Seemann:

This refers to your application dated April 7, 2016, for an amendment to your license to reflect changes in your executive management relative to the radiation safety program. Current NRC policy does not require that a broad scope license be amended when there is a change in executive management. Your above listed license is of broad scope. Therefore, you only need to notify the NRC of any change in executive management relative to the radiation safety program.

In accordance with your letter, we have recorded the changes in your management and will forward future correspondence to the attention of Dr. Wesley Byerly, Associate Vice President for Research Integrity and Regulatory Affairs. Thank you for your notification of the changes.

Your cooperation is appreciated.

Sincerely,

Original signed by John Miller
