

May 10, 2016

Mr. Steven Toelle
Director, Regulatory Affairs
American Centrifuge Operating, LLC
6901 Rockledge Drive, Suite 800
Bethesda, MD 20817-1818

SUBJECT: MAY 5, 2016, OPERATIONAL READINESS REVIEW OF CENTRUS ENERGY
CORP.'S RELOCATED HEADQUARTERS FACILITY – COST ACTIVITY CODE
L34214

Dear Mr. Toelle:

This is in regard to the second portion of the Operational Readiness Review (ORR) of the Security Plan for the Protection of Classified Matter at the Centrus Energy Corp.'s (Centrus') relocated headquarters facility in Bethesda, Maryland, which was conducted by the U.S. Nuclear Regulatory Commission (NRC) staff on May 5, 2016. The first portion of this ORR was previously conducted on April 21, 2016. Both portions were conducted in coordination with subject matter experts (SMEs) from the U.S. Department of Energy's (DOE's) Oak Ridge Office.

Based on the results of the May 5, 2016, ORR, the NRC staff has concluded that the secure room meets the requirements for holding classified discussions. However, although Centrus is being authorized to conduct classified discussions within the room, Centrus is not permitted to utilize secure audio amplification (i.e., secure telephone equipment speaker phone or secure video teleconferencing) until additional tests are performed by the DOE SMEs. Such tests are currently being coordinated with Centrus staff. Authorization for holding classified discussions in the secure room is in addition to the April 26, 2016, NRC staff authorization to use the room for the storage of classified matter (see Agencywide Documents Access and Management System (ADAMS) Accession Number ML16116A324). Centrus is not authorized to use the secure room for any purposes other than those described above.

The NRC staff is currently working on its final report on the findings of the ORR, which will be issued within 30 days after the ORR exit meeting date. As such, efforts under cost activity code number L34214 (previously L34358) will remain open.

In accordance with Title 10 of the *Code of Federal Regulations* Part 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at: <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

S. Toelle
