**SUBJECT: EXTENSION OF DUE DATE FOR IMPLEMENTATION OF URENCO USA  
OPERATING SYSTEM UPGRADES TO THE CLASSIFIED PLANT  
MANAGEMENT SYSTEMS (COST ACTIVITY CODE NUMBER L34363)**

Dear Mr. Thyne:

By letter dated April 27, 2016 (Agencywide Document Access and Management System [ADAMS] Accession No. ML16117A452), the U.S. Nuclear Regulatory Commission (NRC) granted approval to Louisiana Energy Services (LES), LLC dba URENCO USA (UUSA) request for review and approval of Revision (3) to UUSA Classified Plant Management Information System Security Plan (UUSA-CPM-ISSP).

As part of that approval and authorization, the NRC imposed the following stipulation:

UUSA shall complete the upgrades within 14 days of the date of this letter, and submit the Security Assessment Report for the CPM to NRC, for transmittal to DOE-NE-ORSO, for review and reaccreditation within 30 days of completion.

In response to an e-mail from Ricardo Medina on May 6, 2016, SUBJECT: LAR 16-04 CPM (ADAMS Accession No. ML16132A093) requesting an extension of both due dates to 90 days from date of the letter, the NRC has consulted with the U.S. Department of Energy, Nuclear Energy Oak Ridge Site Office (ADAMS Accession No. ML16132A100) and concluded that the proposed extension is acceptable. Therefore, the NRC grants the requested extension. The new date specified for completion of the upgrades and submittal of the Security Assessment Report for the CPM to the NRC is July 26, 2016.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
