MEMORANDUM TO: Kevin Hsueh, Chief
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

FROM: Jonathan G. Rowley, Project Manager /RA/
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MARCH 10, 2016, MEETING WITH THE
PRESSURIZED WATER REACTOR OWNERS GROUP
REGARDING TOPICAL REPORT WCAP-17308-NP,
REVISION 0, "TREATMENT OF DIESEL GENERATOR (DG)
TECHNICAL SPECIFICATION FREQUENCY AND VOLTAGE
TOLERANCES"

On March 10, 2016, a meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and the Pressurized Water Reactor Owners Group (PWROG) representatives. The purpose of this meeting was to discuss the PWROG comments on the NRC draft safety evaluation (SE) for Topical Report (TR) WCAP-17308-NP, Revision 0. The comments were made pursuant to the guidance in the February 12, 2016 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15350A356), letter that transmitted the draft SE for TR WCAP-17308-NP, Revision 0, to the PWROG.

The vast majority of the PWROG comments indicated that the draft SE included information that was beyond the scope of the TR, which focused on addressing steady state operation of the diesel generator. The PWROG representatives discussed why the information was beyond the scope of the TR, and clarified the NRC staff's understanding of the objective of the TR. The PWROG representatives requested that the NRC staff delete any information that was included in the draft SE that was beyond the scope of the TR. The NRC staff informed the PWROG representatives that the comments would be taken into consideration when generating the final SE.

One of the NRC staff members from the Electrical Branch who reviewed the TR and provided input to the draft SE was not present at the meeting. The NRC staff that was present at the

meeting took an action to discuss the information that was discussed at the meeting with the Electrical Branch reviewer. A follow-up call was to be arranged by the NRC to ensure that the NRC staff reviewer who was not present at the meeting fully understood the PWROG comments. The PWROG requested that no further action be taken regarding issuing the final SE until this call took place.

A list of attendees is enclosed.
