SUBJECT: UNIVERSITY OF UTAH – NUCLEAR REGULATORY COMMISSION
SECURITY-RELATED INSPECTION REPORT NO. 50-407/2016-201

Dear Dr. Jevremovic:

On April 11-13, 2016, the U.S. Nuclear Regulatory Commission (NRC) conducted a security inspection at your University of Utah TRIGA Research Reactor Facility. The enclosed report documents the inspection results, which were discussed on April 13, 2016, with you and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations, as well as compliance with the conditions of your license. The inspector reviewed selected procedures and records, observed activities, and interviewed personnel. Based on the results of this inspection, no findings of non-compliance with NRC requirements were identified. No response to this letter is required.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.390, "Public inspections, exemptions, requests for withholding," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (Agencywide Documents Access and Management System (ADAMS)). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). However, because of the security-related items contained in the inspection report, and in accordance with 10 CFR 2.390(d), it will not be available for public inspection.

T. Jevremovic
