Re: Oconee Unit 3
Docket No. 50-287

Dear Mr. O'Reilly:

Please find attached Reportable Occurrence Report RO-287/79-6. This report is being submitted pursuant to Oconee Nuclear Station Technical Specifications 6.2 and 6.6.2.1.b(2), which concerns conditions leading to a shutdown required by a limiting condition for operation, and describes an incident which is considered to have no significance with respect to its effect on the health and safety of the public.

My letter of April 5, 1979 addressed the delays involved in preparing this report.

Very truly yours,

William O. Parker, Jr.
