Subject: Cracked Steam Generator Manway Studs at Oconee III

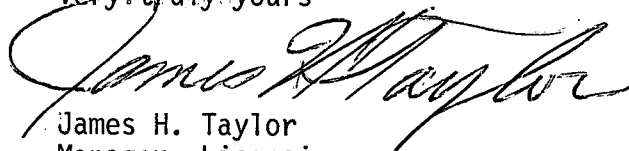

Reference: Letter from J. H. Taylor to Victor Stello dated July 11, 1980,
same subject as above.

Dear Mr. Stello:

It has come to my attention that the referenced letter omitted mention of one project which uses the same steam generator manway stud configuration as that described for Oconee III. That project involves the Midland's I and II facilities. It may have been noted in the attachment to the referenced letter that Consumer's Power Co. did receive copies of the notification but the Midland project was not listed on page 2 and should have been.

Please add this letter to the file dealing with the subject.

Very truly yours

James H. Taylor
Manager, Licensing
