I apologize for submitting my comment on the subject Docket ID past the deadline. I hope that it will be considered even though it is late. I understand there is no obligation to address my comment.

Comment on Draft Regulatory Guide RG 1.192, "Operation and Maintenance [OM] Code Case Acceptability, ASME OM Code," Revision 2, (DG-1297):

Please consider allowing the use of Code Case OMN-20 for those plants that implement ASME OM Code 2015 Edition and earlier editions and addenda. Making this allowance in RG 1.192 will eliminate the need for future relief requests to adopt the use of Code Case OMN-20 for those plants that implement OM Code 2012 Edition or 2015 Edition.

Thank you for considering this comment.
