Albany, NY 12203

SUBJECT: STATUS OF NRC'S REVIEW OF THE SUPPLEMENTAL RADIOLOGICAL  
SURVEY PLAN FOR THE FORMER UNITED NUCLEAR CORPORATION  
NAVAL PRODUCTS SITE IN NEW HAVEN, CONNECTICUT

Dear Mr. Uruskyj:

This letter is to inform you that we have completed our review of your Supplemental Radiological Survey Plan, dated March 2016 (Agencywide Documents Access and Management System (ADAMS) Accession Number ML16092A076). We have informed the State of Connecticut Department of Energy and Environmental Protection (DEEP) on the results of our review. Based on our review, the NRC has no further questions and we expect that you will continue with your activities at the site.

In addition, you should review your Final Status Survey Plan (FSSP) to determine if any changes are required as a result of the survey activities. We request that you submit any changes made to your FSSP for NRC review prior to implementation.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

J. Uruskyj
