

CMTG Points of Clarification pertaining to the 2016 renewal.

As pertaining to Section 10.2, we will use a radiation survey meter capable of detecting gamma radiation which will be checked for functionality before use.

The Use of our gauge will be in accordance to the manufacturer's instructions and recommendations.

In case of an emergency, we will immediately secure the area and keep people at least 15 feet away from the gauge until the situation is assessed and radiation levels are known.

We will conduct our audits as described in Appendix F of the NUREG 1156 Vol. 1, Rev. 1 (November 2001)

Signed

A handwritten signature in black ink, appearing to be 'G. B.', written over a horizontal line.

Ladies,
Can this be added to ADAMS? For 24-26162-01 control number 589467.

Thank you!
Vered

If this isn't what you had in mind, let me know. I was driving when we talked yesterday so I may have misinterpreted what you were asking for.
