SUBJECT:  
Davis-Besse Nuclear Power Station, Unit No. 1  
Docket No. 50-346, License No. NPF-3  
Online Reference Portal for Review of National Fire Protection Association (NFPA)  
Standard 805 License Amendment Request (CAC No. MF7190)

By letter dated December 16, 2015 (Accession No. ML15350A314), as supplemented by letter dated March 7, 2016 (Accession No. ML16067A195), FirstEnergy Nuclear Operating Company (FENOC) submitted a license amendment request to adopt NFPA Standard 805, "Performance-Based Standard for Fire Protection for Light Water Reactor Electric Generating Plants (2001 Edition)." By letter dated March 23, 2016 (Accession No. ML16075A111), the Nuclear Regulatory Commission (NRC) staff requested that an online reference portal (portal) be established to improve review efficiency of the NFPA 805 submittal with a generic list of requested documents, and described conditions for use of the portal. The NRC staff also requested written confirmation of agreement to the terms and conditions.

FENOC has established the requested portal and hereby agrees to the conditions set forth in the March 23, 2016 letter and listed below:

- The online reference portal will be password-protected and passwords will be assigned to those directly involved in the review on a need-to-know basis;
- The online reference portal will be sufficiently secure to prevent staff from printing, saving, or downloading any documents; and
- Conditions of use of the online reference portal will be displayed on the login screen and will require concurrence by each user.

These conditions will be maintained throughout the duration of the review process.

Davis-Besse Nuclear Power Station, Unit No. 1  
L-16-170
