Prairie Island Independent Spent Fuel Storage Installation (ISFSI)
Docket 72-10
Renewed Materials License No. SNM-2506

Confirmation That Implementing Procedures Comply with ISFSI Renewed License
Condition 20

Pursuant to 10 CFR 72.4 and ISFSI Renewed License Condition 20, Northern States Power Company, a Minnesota corporation, doing business as Xcel Energy (hereafter "NSPM") hereby confirms completion of each of the following requirements:

- (a) The procedures for implementation of the activities as described in the Aging Management Programs (AMPs) summarized in Appendix C, Rev. 1 are in place.

On or before the 90-day requirement in License Condition 20, NSPM created or revised the procedures necessary to implement the AMPs summarized in Appendix C, Rev. 1.

- (b) The procedures will be maintained for the term of this license.

Insofar as License Condition 20 is preserved and published in a controlled copy of the ISFSI license, and administrative controls are established to preserve these procedures, NSPM confirms that appropriate safeguards are in place to maintain the subject procedures for the term of the license.

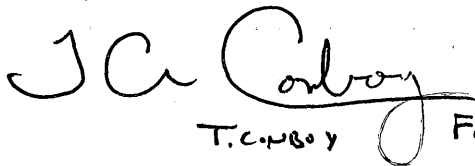

- (c) Appropriate references to the AMPs are provided in the procedures.

Implementing procedures include a statement that refers to the ISFSI License Renewal Aging Management Programs.

If there are any questions or if additional information is needed, please contact Glenn Adams at 612-330-6777.

Summary of Commitments

This letter contains no new commitments and no revisions to existing commitments.
