Subject: Revision to Radiological Contingency & Emergency Plan (RC&EP)

Reference: 1) NRC License SNM-1097, Docket 70-1113

Dear Sir or Madam:

Global Nuclear Fuel – Americas, L.L.C. (GNF-A) facility in Wilmington, N.C. hereby submits a revised Radiological Contingency & Emergency Plan (RC&EP) dated June 2, 2016. Please replace the existing RC&EP with this version in its entirety.

The RC&EP changes have been internally reviewed and documented as those that do not reduce the plan effectiveness and do not require prior NRC approval in accordance with SNM 1097 Chapter 8 and 10 CFR 70.32(i).

Attachment 1 contains the updated RC&EP in its entirety. Wherever there is a page change within a chapter, the entire chapter is identified with the next revision number. Only pages with changes have a vertical (|) in the right-hand column next to the location of the change.

Pursuant to NRC Regulatory Issue Summary 2005-31, GNF-A requests that the attachment to this letter be withheld from public disclosure under 10 CFR 2.390 as it contains security related sensitive information associated with our Emergency Planning and Response Program.

Please contact me on (910) 819-5950 or Phillip Ollis on (910) 819-6301 if you have any questions or would like to discuss this matter further.

Sincerely,

Scott Murray, Manager
Facility Licensing
