Mr. Lentz,

It has been identified that there are currently no further requests for additional information (RAIs) regarding the 12/23/2013 license amendment request that would adopt the National Fire Protection Association Standard 805, "Performance Based Standard for Fire Protection for Light Water Reactor Electric Generating Plants." FENOC can proceed with the integrated analysis as addressed in Probabilistic Risk Assessment RAI Nos. 3 and 19. The NRC staff will expect a response within 120 days from the date of this email (6/1/2016).

Thank you,

Taylor A Lamb
