

**Quarterly Status Report for Technical Assistance
Provided by the United States Department of Energy
October 1 through December 31, 2013
1st Quarter of Fiscal Year 2014**

I. Introduction

The Department of Energy (DOE) and the Nuclear Regulatory Commission (NRC) have entered into five interagency agreements for DOE to provide technical assistance in carrying out NRC's responsibilities with respect to classified matter protection programs at various licensee sites. These interagency agreements are:

- J5713 – *Classification of Information at the Louisiana Energy Services Uranium Enrichment Facility*:

Each of the Interagency agreements contains terms that require DOE to provide quarterly reports describing DOE activities relating to each of the agreements.

This is the fifth report prepared in accordance with the terms of the agreements.

II. Description of Activities During this Reporting Period

The DOE continued working with the NRC and URENCO U.S.A. (UUSA) to finalize the course material and confirm a date for on-site delivery of a specialized training class in the use of CG-LCP-4A, *Joint NRC/DOE Classification and Official Use Only Guide for Louisiana Energy Services Gas Centrifuge Plant*.

A summary of the activities associated with each agreement follows.

C. Classification of Information at the Louisiana Energy Services Uranium Enrichment Facility – J5713

During this reporting period, technical support provided by DOE included the following:

- Continued coordination with NRC and UUSA for on-site delivery of training course;
- Prepared several boxes of training materials to support on-site delivery to 28 students;
- Sent classified portion of training materials to the NRC to be sent to UUSA;
- Sent unclassified portion of training material to UUSA;
- Forwarded lists of class attendees from UUSA and NRC to DOE Office of Personnel Security for clearance verification;
- Submitted visit requests through the Office of Personnel Security to UUSA; and
- Made travel arrangements to deliver training class in Eunice, New Mexico.

The funding provided to support the Classification of Information at the Louisiana Energy Services Uranium Enrichment Facility was \$40,000. No additional funding was provided during this reporting period. Therefore, the cumulative funding provided remained at \$40,000.

The cost accounting in support of this interagency agreement is summarized below:

Total Funding Provided	\$ 40,000.00
Previous FY Expenditures	\$ 8,077.84
Expenditures this Quarter:	
Technical Support	\$ 4,618.70
Travel Expenses	\$ 0.00
Equipment Purchased	\$ 0.00
Total	\$ 4,618.70
Cumulative Expenses	\$ 12,696.54
Funds Remaining	\$ 27,303.46

Based upon the current spending rates, we do not foresee a funding shortfall during the second quarter of the fiscal year 2014.
