Subject: Questions on Jane Dough RAI response dated May 24, 2016
Date: Monday, June 13, 2016 4:42:00 PM

Good afternoon Dawn,

I need to cancel our scheduled biweekly project call this Thursday, June 16. However, we have questions about the May 24 RAI responses.

For most of these comments, we noticed the RAI responses state that information and/or changed pages are provided in the package, but the information wasn't provided.

Please let me know after you've had a chance to review these comments. I'd like to discuss your proposed response.

RAI	Comment
1.1-1	SERP-approved changes in second half of 2015 not included. (for example, see Feb. 26, 2016 semiannual report – ML16091A186).
2.7-7	Text changes not made as described in RAI response
2.7-10	Incorrect callout to Exhibit 2-4 not corrected in text
3.2-3	p. TR-173 text regarding Nichols and Jane Dough appears inconsistent with the Figure provided with the response to RAI 3.2-3 and the planned production schedule shown on TR Figure 3-12. p. TR-173 indicates no overlap of Jane Dough and Nichols Ranch production, but RAI figure 3.2-3 and TR Figure 3-12 indicate otherwise.
D6C-1.t	Excel spreadsheet not provided.
ADM D6-7	In the revised Table JD-D6-2, it appears most wells have revised coordinates and well depths. Also the revision date is now April 2010. Please verify that the information contained in the version of Table JD-D6-2 is current.
ADM 2.6-1	Incorrect reference added to text? (e.g., Sharp et al. 1964 was added, but not Sharp and Gibbons 1964, as cited in the text).
ADM 2.7-2	Figure not revised with sample locations.
ADM 2.7-18	Footnotes not added as described in RAI response.
ADM 3.4-2	Text changes not made as described in RAI response.
ADM 5.7-6	Text changes not made as described in RAI response.
