Subject: Part 37 Requirements

Discussion: I discussed with Mr. Steven that the increased amounts of material such that they might need to implement Part 37 requirements. I suggested that they send in a commitment to co-locate the material to below Part 37 requirements. Mr. Steven's said that he would rather lower the maximum amounts to the previous value so that he didn't have to make the commitment. He said that he didn't need the additional source quantity authorization at this time and would review Part 37 requirements.
