Jill,  
Thank you for taking a Good Faith Effort in protecting these sites. I am glad to hear you are requesting that go forward. I think it is the best next of Voluntary Avoidance is the best thing we could go forward. Please keep me updated and appreciate you going the distance in keeping me a part of this process.

Thanks! Have a wonderful rest of the day!

Dear Yufna,

I wanted to reach out to you before I sent a revised recommendation to SHPO. Since we are not able to get photographs of Site 3 and 4, I am planning to revise our recommendation for these two sites to "Not eligible" but to recommend voluntary avoidance. If voluntary avoidance is not possible then NRC will recommend that the applicant voluntarily mitigate effects and seek tribal oversight during licensed activities that may impact these two sites. Please let me know if you have any concerns with this path. Otherwise, I would like to continue with the process and revised recommendation to SHPO.

Thanks again for your time on this project.

So appreciate it.

Jill
