3) Letter, NRC to NFS, Acceptance of Emergency Plan, Revision 20 (Cost Accounting Control Number L33395), received February 22, 2016

Subject: **Transmittal of Changes to NFS Emergency Plan for Chapter 1 (Facility Description) and Chapter 2 (Types of Accidents), NFS-GH-903**

Dear Sir:

Nuclear Fuel Services, Inc. (NFS) is hereby providing changes to the NFS Emergency Plan, NFS-GH-903, Revision 20, dated November 2015. These changes have been reviewed and approved by the NFS Safety and Safeguards Review Council (SSRC). In accordance with 10 CFR Part 70, Section 70.32 (i), NFS has determined that the changes reflected in the attached Revision 20.A do not decrease the effectiveness of the Emergency Plan, and an amendment of SNM License 124 is not requested. As information, these changes became effective on January 1, 2016.

Information contained in the enclosed Emergency Plan revision includes sensitive information and is marked "OFFICIAL USE ONLY" (OUO) in accordance with 5 U.S.C.552, and is not suitable for public release.

OFFICIAL USE ONLY

The BLEU Complex Facility, described in Section 1.2.3 of the Emergency Plan, is no longer operational and decommissioning activities are currently under way. Since the facility is no longer a Category III Security facility, a dedicated security element is not required. As a result, NFS has revised the affected page in Chapter 1 and the affected page in Chapter 2 of the Plan, and is submitting them per the requirements of Reference 1. The revised pages are attached, in addition to a revised Pen and Ink/Attachment Revision Page 14 that describes the Revision 20.A changes. Changes are also noted by vertical lines in the right margin of the affected pages.

If you or your staff have any questions or require additional information, please contact me or Dr. Sarah Barron, Emergency Preparedness Program Manager, at (423) 735-5543. Please reference our unique document identification number (21G-16-0099) in any correspondence concerning this letter.

Sincerely,

NUCLEAR FUEL SERVICES, INC.

Richard J. Freudenberger, Director
Safety & Safeguards
