Subject: [External_Sender] RE: Picatinny Area 1222 -
Date: Friday, August 26, 2016 11:26:58 AM

Laurie,

I was able to get a hold of someone in our Dept. of Public Works who is going to send me a map with the latitude & longitude and northing & easting of the detonation pit. As soon as I receive that I will forward it on to you.

There will be no tree clearing activities as part of this project. The closest wetlands area is on the other side of the road from our area of concern; the Picatinny Garrison Environmental Office has determined there will be no wetlands impact from these activities.

V/r,
Margaret

Subject: [Non-DoD Source] Picatinny Area 1222 -

Hello,

It was a pleasure speaking with you today regarding this project. We discussed a couple of questions that I received via an email from a US Fish & Wildlife New Jersey office representative. I am restating the questions in this email to maintain a paper-trail. Please provide the coordinates of the Area 1222 and confirm that no tree clearing activities will occur and state if there will be an impact any wetlands or if activities will occur near any wetlands.

Regards,

Laurie A. Kauffman
