SUBJECT: ISSUANCE OF THE MANDATORY HEARING DECISION AND SUMMARY  
RECORD OF DECISION FOR THE COMBINED LICENSE APPLICATION  
REVIEW FOR LEVY NUCLEAR PLANT UNITS 1 AND 2

Dear Mr. Mueller:

The U.S. Nuclear Regulatory Commission (NRC or Commission) has issued combined licenses (COLs) NPF-099 and NPF-100 to Duke Energy Florida, LLC (DEF). Under Section 2.106 of Title 10 of the *Code of Federal Regulations* (CFR), "Notice of issuance," the NRC is providing notice of the issuance of COLs NPF-099 and NPF-100 and, under 10 CFR 51.102(c), the Record of Decision (ROD).

The Commission conducted a mandatory hearing on the COL application on July 28, 2016. The Commission has also issued its Memorandum and Order documenting its final decision on the uncontested hearing held on July 28, 2016, which serves as the ROD in this proceeding. The NRC also prepared a document summarizing the ROD to accompany its action on the COLs application that incorporates by reference materials contained in the final environmental impact statement. Enclosed for your information is a copy of the Order issued by the Commission to document its decision on the hearing and Summary ROD. This hearing decision, dated October 20, 2016, authorized the staff to issue the requested licenses. The COLs and Summary ROD were issued on October 26, 2016. The COLs are effective immediately.

If you would like further information regarding the licensing decision, related documents, such as documentation included in the combined licenses package, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this website, persons can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of the NRC's public documents.

The ADAMS Accession Nos. for key documents related to the licenses include:
