Rockville, MD 20852

Gentlemen:

Subject: Notification of Second (Final) Shipping Window for Shipment of AREVA MkB-HTP-1 15x15 Fuel Assemblies from the Crystal River 3 to the Oconee Power Plant

Ref. 1. Letter, S. Ruffin (USNRC) to TJ Tate (AREVA Inc.); Authorization for Shipment of the Model No. 51032-2 Package from Crystal River 3 to Oconee Nuclear Power Plant; TAC No. L25086; March 2, 2016.

Ref. 2. Letter, TJ Tate to US NRC Document Control Desk; "Notification of Initial Shipping Window for Shipment of AREVA MkB-HTP-1 15x15 Fuel Assemblies from the Crystal River 3 to the Oconee Power Plant", April 6, 2016

The Reference 1 NRC correspondence conveys the NRC's authorization to ship AREVA MkB-HTP-1 15x15 PWR fuel assemblies of 4.55 and 4.95 wt.% U-235 enrichments from the Crystal River 3 to the Oconee Nuclear Power Plant under special conditions prescribed therein. One of those conditions requires that AREVA provide the NRC with at least ninety (90) days pre-notification prior to the initiation of either of the two four-month windows over which the fuel shipments will be made. AREVA notified the NRC of the initial shipping window via Reference 2. The purpose of this correspondence is to inform the NRC that the second and final four-month shipping window will commence the week of January 9, 2017. All shipments will be made in accordance with the conditions set forth in the NRC's letter of authorization. If you have questions, please feel free to contact me at 509-375-8550.

Very truly yours,

A handwritten signature in black ink, appearing to read 'T. J. Tate'.

T. J. Tate, Manager
Environmental, Health, Safety, & Licensing
