Dear Dr. Forde:

This refers to your telephone conversation on October 3, 2016, with Ms. Jennifer Bishop of my staff. During the telephone conversation, you indicated that you were not ready for the NRC to conduct a site visit and would like to withdraw your amendment request. Ms. Bishop requested that you provide a written request to withdraw your application, however we have not received this request.

As discussed during the telephone conversation, we have voided your request. This action is without prejudice to resubmission. If you resubmit your request please state that the resubmission is additional information to Control Number 591398. Please review the guidance in NUREG 1556, Volume 9, Revision 2, "Consolidated Guidance about Material Licenses, Program Specific Guidance about Medical Use Licenses," and ensure that your application includes the information discussed in that document. Preparing your amendment requests carefully and in accordance with NRC's regulatory requirements and guidance, especially the documents in the NUREG 1556 series, as well as other information on our website at <http://www.nrc.gov>, will greatly help ensure that your correspondence is complete and accurate.

If you have any questions or require clarification on any of the information stated above, please contact me at (630) 829-9868.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
