SUBJECT: PALO VERDE NUCLEAR GENERATING STATION, UNITS 1, 2, AND 3 -  
REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE  
(CAC NOS. MF7138, MF7139, AND MF7140)

Dear Mr. Bement:

By letter dated October 6, 2016 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML16286A263), Arizona Public Service Company (the licensee) submitted an affidavit dated September 22, 2016 (CAW-16-4474), to the U.S. Nuclear Regulatory Commission (NRC), executed by Mr. James A Gresham, Manager, Regulatory Compliance, Westinghouse Electric Company LLC (Westinghouse), requesting that the information contained in the following document (Attachment 3 of the enclosure to the letter dated October 6, 2016) be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

- Westinghouse Electric Company Responses to RAIs [Requests for Additional Information], Proprietary Version.

A non-proprietary copy of the document entitled "Westinghouse Electric Company Responses to RAIs, Non-Proprietary Version," contained in Attachment 2 of the enclosure to your letter dated October 6, 2016, has been placed in the NRC's Public Document Room and added to the NRC Library in ADAMS at Accession No. ML16286A242.

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (a) The use of such information by Westinghouse gives Westinghouse a competitive advantage over its competitors. It is, therefore, withheld from disclosure to protect the Westinghouse competitive position.
- (c) Use by our competitor would put Westinghouse at a competitive disadvantage by reducing his expenditure of resources at our expense.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the

submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-1564.

Sincerely,

Siva P. Lingam, Project Manager  
Plant Licensing Branch IV  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation
