

# NEI 14-14 Process Lessons Learned (to date)

Office of Nuclear Material Safety and Safeguards  
Division of Fuel Cycle Safety, Safeguards and Environmental Review  
October 12, 2016

# NEI 14-14 Process Lessons Learned

- Resources and Timelines
  - Detailed process
  - Large number of internal and external stakeholders
- Incorporate pre-meeting
  - Meeting prior to formal submission may allow more clarity in the problem statement and fuller understanding by staff
- Identify regulatory processes previously considered
  - Recognize previous efforts/thoughts

# NEI 14-14 Process Lessons Learned

- Re-visit timelines
  - Timelines were a challenge given schedules/work priorities
- Evaluate current close-out process
  - Closure form versus standard letter
  - Level of detail necessary
- Lessons learned from NEI and industry
