SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE
OF LOCKHEED MARTIN OCTOBER 3, 2016, SUBMITTAL (TAC NO. ME7900)

Dear Mr. Rosentel:

By letter dated October 3, 2016 (Agencywide Documents Access and Management System Accession package No. ML16281A276), Lockheed Martin submitted an affidavit executed by you also dated October 3, 2016. Your letter requested that the information contained in the following document be withheld from public disclosure under Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390, "Hearing Requests, Petitions to Intervene, Requirements for Standing, and Conditions."

Document Number	Document Name	Document Rev
ASR610000-112	BL 1.3.2 Core IV&V Concept Activity Summary Report	A
ASR610000-113	BL 1.3.2 Core IV&V Requirements Activity Summary Report	A
ASR610000-114	BL 1.3.2 Core IV&V Design Activity Summary	-
ASR610000-115	BL 1.3.2 Core IV&V Implementation Activity Summary Report	-
ASR610000-116	BL 1.3.2 Core IV&V Test Activity Summary Report	-

The letter stated that Lockheed Martin did not plan to submit a nonproprietary version of the document. The basis given was that, because of the extensive amount of proprietary information in the document, a nonproprietary version would be of no value to the public.

You detailed the reasons for withholding the information in your affidavit.

The U.S. Nuclear Regulatory Commission (NRC) staff has reviewed your application and the statements in your affidavit, as well as the material, in accordance with the requirements of 10 CFR 2.390, and has determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version(s) of the submitted information marked as proprietary will be withheld from public disclosure under 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, the agency may send copies of this information to its consultants working in this area. The NRC staff will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information. If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC staff.

You also should understand that the NRC staff may have cause to review this determination in the future (for example, if the scope of a Freedom of Information Act request includes your information). In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I can be reached at 301-415-7297 or via e-mail at Joseph.Holonich@nrc.gov.

Sincerely,

/RA/

Joseph J. Holonich, Senior Project Manager
