Ed – Following up on our phone call this afternoon, this is to confirm on behalf of Aerotest Operations, Inc. and Nuclear Labyrinth LLC that:

1. The replacement page 12 of the proposed Technical Specifications for the Aerotest Radiography and Research Reactor (“ARRR”), transmitted by my letter of October 10, 2016, is intended to supersede the proposed Technical Specifications for ARRR transmitted by my letter of August 22, 2016, and
2. Section 12.1.3.2 of the proposed Technical Specifications transmitted by my letter of October 10, 2016 included a typographical error in that the word “Review” should have read “Reviewing”.

Please let me know if you need any further information or have any additional questions.
