Subject: [External_Sender] Lost Creek MO-108 excursion sample
Date: Thursday, October 20, 2016 11:57:34 AM

Mr. Saxton,

This is a note to inform you that the weekly excursion monitoring sample analysis for MO-108 for the week of October 10, 2016 was not completed. The sample was collected on Thursday October 13, 2016 for that week but was missing from the cooler upon submittal to Energy Laboratories. Our sampler was off on Friday and, on the following Monday, was not able to locate the sample. The lab had not located the sample either. The weekly sample for this week was collected yesterday and submitted to Energy Labs this morning.

A note to file will be placed in our records.
