Hi Chris,

Attached is the TAR for the action. Please let me know if the dates are acceptable or require adjustment. Thanks

Ty

The Fuel Manufacturing Branch of the Division of Fuel Cycle Safety, Safeguards and Environmental Review requests technical assistance for the following project:

**PROJECT:** National Institute of Standards and Technology (NIST)

**DOCKET NO:** 0700-0398 **LICENSE NO:** SNM-362

**CAC NO:** L33426

**ADAMS NO:** ML16279A280

**REQUESTED ACTION:** Review the update to Decommissioning Funding Plan for the National Institute of Standards and Technology (NIST), identified on the docketed correspondence. Determine if there are major deficiencies that make the submittal unacceptable for detailed review and prepare a recommendation to accept or deny (if required). Prepare requests for additional information, if needed. Evaluate any additional information submitted. Participate in meetings, conference calls, and site visits, if necessary. Provide input for a Final Report.

The above task is estimated to require approximately 80 staff hours.

Another heads up on the DFP front. I expect a triennial DFP update to the NIST DFP around the middle of September. I'll put together a TAR when it comes in and Robert will forward it over. Let me know if there is anyone in particular in your branch who you would have working that.
