Summary of Changes to One Procedure and One Form That Implement the Wolf Creek Generating Station (WCGS) Radiological Emergency Response Plan (RERP)

1. Procedure EPP 06-019, "Alert and Notification System Sirens," Rev. 9A

The siren identifier for the Burlington #2 Emergency Response Siren listed in Attachment A has been corrected to BW2. This change is editorial in nature and does not reduce the effectiveness of the WCGS RERP.

2. Form EPF 06-018-16, "Topeka Joint Information Clearinghouse (JIC) Inventory Checklist," Rev. 3A

A line item for a CD/DVD binder in this inventory has been deleted because this binder is noted in the comments column for the Technical Specifications (TS061) CD-ROM item. This editorial change provides consistency for CD-ROM items that are required to be inventoried and does not reduce the effectiveness of the WCGS RERP.
