Re: Reorganizational Change Notification for Wolf Run Mining Company  
Sawmill Run Preparation Plant License GL-723624-20

To Whom It May Concern:

Per our previous notice to NRC dated January 12, 2016, Arch Coal Inc. and certain of its direct and indirect subsidiaries (collectively the "Company") filed voluntary petitions for relief under Chapter 11 of the U.S. Bankruptcy Code. This notice is to inform NRC that on October 5, 2016, the Company consummated its plan of reorganization (the "Plan") and emerged from Chapter 11. Pursuant to the Plan, the Company's emergence from Chapter 11 did not constitute a change in control.

During the Chapter 11 reorganizing process, and upon emergence, Wolf Run Mining Company has retained control of all sources assigned to Wolf Run Mining Company and under (GL-723624-20). The Radiation Safety Officer remains Joe Myers, at this time, and there have been no other changes in the operation that affected the use or location of source materials under NRC license control.

If you have any questions about the Company's emergence from Chapter 11, please contact (Joe Myers, RSO) at (304-471-3300 Ext. 3301).

Sincerely,

Joseph B. Myers
