Margaret and Jerilyn.

Thanks for your time today. I believe that the discussion was valuable in clarifying each of the open items that we discussed during the inspection. As mentioned during the call, based on the results of the on-site inspection, and the information obtained during the follow-up of the open items, no violations were identified. Attached is an NRC Form 591M documenting the results of the inspection. No additional action is required on your part other than an email acknowledging receipt. Thank you.

Please feel free to contact me if you have any questions.
