RE: Amendment to NRC License #13-02752-03

Dear Sir/Madam:

Condition 10.C. of the NRC license referenced above authorizes use of byproduct material at Conrad Farms, 7610 West County Line Road, Camby, Indiana. We have formally ceased using byproduct material at that location and there are no immediate plans to do so in the future.

All byproduct material has been removed, a formal decommissioning survey was performed by the IUPUI/IUMC Radiation Safety Staff, and no residual contamination was detected. A copy of the decommissioning survey report will be maintained on file for review during future NRC inspections. We respectfully request the Conrad Farms location be deleted from the NRC license as an authorized location for byproduct material use.

Should you have any questions or require further information, please do not hesitate to contact this office.

Sincerely,

Mack L. Richard, MS, CHP
Director of Health Physics/Radiation Safety Officer

Importance: High

Hi, Sandy:

Attached is a brief amendment request (signed by me) to simply remove an authorized location of use from our license. If you need me to send this via US mail, let me know and I'll be happy to do so. As always, don't hesitate to contact me should you or others have questions.

Regards,
Mack R.
