Perma-Fix Northwest, Inc.)	License Nos. IW022/05
)	XW012/05
(Import and Export of Radioactive Waste))	
)	

On September 9, 2016, Citizens for Alternatives to Chemical Contamination (CACC), through its representative, Kay Cumbow, submitted a filing requesting a public hearing and an extension of the period for public comment on Perma-Fix's applications to amend and renew existing licenses to import (IW022/05¹) and export (XW012/05²) Canadian-origin low level radioactive waste. On October 17, 2016, the Nuclear Regulatory Commission returned the import and export applications to the applicant without further action. The October 17 return letter stated that the applications were incomplete as to the descriptions of the Class B waste that the applicant intended to import and export and that, as a result, the Federal Register notice made available to the public for comment did not adequately describe the type of radioactive material being requested for import/export.³

This Order is issued under my authority in 10 C.F.R. § 110.88.

³ ADAMS ML16281A160.

IT IS SO ORDERED.

For the Commission
