PLEASE CONFIRM RECEIPT OF THIS REQUEST FOR ADDITIONAL INFORMATION BY RETURN EMAIL

Dear Ms. Shanley,

In addition to the information I requested by email dated October 18, 2016 I would like to request the following additional information:

The NRC has recently begun to use a new software system to generate our licenses. This new system does not allow multiple radioisotopes listed as one line item under Condition 6. Specifically, we are no longer able to state, for Condition 6.D. on License No. 06-08544-01, "Iodine-125 and Palladium-103 permitted by 10 CFR 35.400." We now must list the Iodine-125 and Palladium-103 separately. This now affects Condition 8.D. which has a maximum amount you may possess at any one time and which currently states 2000 millicuries.

Please provide the maximum amount of each radionuclide, Iodine-125 and Palladium-103, you would like listed in Condition 8.

Regards,

Robert L. Gallagher
