Dear Ms. Holahan:

Regarding the Confirmatory Order resulting from our ADR agreement (Docket NRC-2016-0086), C&D Technologies is requesting an extension on item 3.A (root cause analysis and extent of condition) until December 2, 2016. This action calls for review of customer inputs, corrective actions, and non-conformance reports from 2011 to present. This review is in progress, however, reviews of older paper records are taking longer than expected. We expect to have it completed shortly.

A copy of this correspondence has been sent overnight mail to the NRC Document Control Desk. Please contact me with any questions or comments.

Best Regards,
