John,

I have completed STSB's acceptance review for the subject submittal.

I find the amendment to be acceptable per LIC-109 for review as the application appears to reasonably contain sufficient technical information, both in scope and depth.

STSB's effort is estimated to be approx. 80 hrs and will comprise of all the SE drafting.

I don't have this LAR assigned to me in RPS. Please make sure I get assigned on RPS or I will not be able to track RAI & SE due dates.

If you have any questions or need additional information, please don't hesitate to contact me.

Thanks,
Caroline
