Docket Nos. 50-269, 50-270, 50-287 / Renewed License Nos. DPR-38, DPR-47, and DPR-55

Subject: **Revised Response to NRC Regulatory Issue Summary 2015-05 Preparation and Scheduling of Operator Licensing Examinations - Oconee**

On April 20, 2015, the Nuclear Regulatory Commission issued Regulatory Issue Summary (RIS) 2015-05, "Preparation and Scheduling of Operator Licensing Examinations." The RIS requested the voluntary submittal of information on future operator licensing examinations for calendar years 2017 through 2020 via Form 536, "Operator Licensing Examination Data."

Duke response letter RA-15-0021, dated May 20, 2015, identified two licensee-prepared examinations in CY 2017 at Oconee Nuclear Station. This letter revises the response for Oconee Nuclear Station. There are no operator licensing examinations scheduled in CY 17.

If there are any questions, contact Pam Metler at 864-873-3856.

Thomas D. Ray
