Subject: [External_Sender] UPDATE ON GAG ORDERS

Mr. Barkley, enclosed is my letter to MA Senator's Tarr's Chief of Staff, A. J. Paglia regarding the GAG orders on the MA State Police and the NH National Guard. These brave individuals are willing to testify publicly. I have requested of Senator Bruce Tarr's office that the identities of these informants not be released until the Nuclear Regulatory (NRC) Commission holds this hearing for first responders.

In addition, I am still looking for a letter from NRC Chairman, Stephen Burns regarding the still unanswered questions I posed to him personally. As you are well aware one of my inquires was whether the NRC Chairman Burns believes leaving special Needs citizens behind in the event of a nuclear disaster and given KI is humane?

Lastly you and I spoke about a possible weld problem regarding a Nuclear Plant in the State of Georgia. I am still waiting for the results of your investigation and reply to this safety issue.

Best regards,
